

LIMITED WARRANTY

Ultra-tec® Model 650 and Model 610 Swagers

The Cable Connection, a Nevada corporation, (hereinafter "Seller") warrants its Ultra-tec® Model 650 Swager and Model 610 Swager, including the air or electric activated pump supplied with the swager, (hereinafter "Product") to be free from defects due to defective materials or workmanship for a period of one (1) year from the date of receipt by the customer ordering the Product (hereinafter "Customer) from the Seller or thirteen (13) months from the date of shipment by Seller, whichever date is earlier.

This warranty does not cover articles which have been abused, neglected or used in any manner other than contained in Seller's instructions for using the Product nor for any damage or failure resulting from abnormal or unusual environmental conditions not revealed to Seller prior to shipment of the merchandise, vandalism, insurrection, war or acts of nature.

Seller's obligations under this warranty are limited to the replacement or refund of the purchase price of the Product found to be defective under the terms contained herein. The purchase price shall be the price Customer paid Seller for the Product. The Cable Connection shall not be liable for any expenses relating to the replacement of defective materials, except as specifically stated above, nor for any other damages of any kind, including but not limited to incidental or consequential damages for lost profits, lost sales, injury to person or property, environmental injuries or any other incidental or consequential damages of any nature.

All claims under this warranty are limited to the warranty period specified above. Should any defect develop during the warranty period, Customer shall provide Seller with written notice of such defect and return the product to Seller at Customer's expense. If, after Seller's inspection, the Product is deemed to be defective, the Seller will reimburse Customer for the return transportation charges and promptly repair or replace the Product or, at its option, refund the purchase price as indicated above.

In the event that the Product should be found to not be operating appropriately, contact should be made with Seller as soon as possible. Under no circumstances should any attempt be made to remedy the problem, as any unauthorized repair will nullify the warranty.
